

RAVAGO ENERGY SERVICES
A Ravago Chemicals Company

RAVAGO'S JOURNEY

When Raf Van Gorp founded Ravago in 1961, he was given the opportunity to buy the premises of a dynamite company in Arendonk, Belgium. This enabled him to work out the luminous idea he had: recycling production waste from the plastics producing petrochemical companies. From there, the company grew into a successful service provider to the petrochemical industry as a distributor and reseller of plastic resins. Production and distribution of building products guaranteed a second revenue line in Europe. Distribution and trading of chemicals is the most recent activity of the Group. Today, the Ravago Group is the number one service provider in the global market of plastics, rubber and chemicals.

MARKET LEADER

Ravago Energy Services (RES) embodies the same vision and core values that have guided Ravago to become one of the world's largest polymer and chemical distributors. With nearly two decades of industry experience, RES is built on strong, long-standing relationships and a reputation for delivering value-added, technical solutions to the challenges faced by our customers in the Oil & Gas industry. Our focus is on the Exploration & Production (E&P) sector, supporting key end applications such as drilling fluids, cementing additives and slurries, stimulation and fracking, and production and completion chemicals. We partner with leading service companies, including those working with operators like BP and Shell, playing an essential role in extracting vital resources from the wellhead.

Ravago Chemicals North America

We are a family company and place a high value on our long-standing relationships with our suppliers, customers and our colleagues. We rely on the technical and industry expertise of our team as we strive to be innovative in our market driven approach.

Our Vision

Our goal is to be the leader in specialty chemical distribution in North America, defined by strong supplier trust, unwavering customer loyalty, and high employee engagement.

Core Strengths

- Global Vision and Support with Local Expertise
- Regional Knowledge with a National Presence
- Highly Skilled Technical Sales Team Supporting Your R&D
- Entrepreneurial Spirit, Focused on Delivering Innovative Solutions
- Powered by Ravago's Strong Logistics Network in Warehousing and Transportation
- Committed to Strengthening Customer Loyalty

Ravago Chemicals is an active and verified member of acd (Alliance For Chemical Distribution, Formerly NACD) Responsible Distribution Process.

E & P CHEMICALS

Exploration & Production

Ravago Chemicals is a leading specialty chemical distributor offering a broad portfolio of high-performance specialty chemicals and surfactants. Our products are tailored for the Exploration & Production sector, supporting critical applications such as drilling fluids, cementing additives and slurries, stimulation and fracking, as well as production and completion chemicals.

E & P CHEMICALS

- 2-Mercaptoethanol
- Acetic Acid
- Acids & Esters
- Acrylic and Styrenated Acrylic Latex
- Alkali Swellable Polymers
- Alkanolamides
- Alky Polyglucoside
- Amide Derivatives
- Amine Oxide
- Amphoteric Surfactants - Betaines, Amine Oxides, Sultaines
- Ammonium Bifluoride
- Ammonium Chloride
- Anionics Surfactants - Sulfonates, Sulfates, Phosphates
- Ascorbic Acid
- Asphaltene Inhibitors
- Benzoic Acid
- Benzyltrimethylammonium Chloride
- Biocide Enhancers
- Boric Acid
- Butyl Glycol (EB)
- Calcium and Sodium Lignosulfonate
- Calcium Stearate
- Calcium Hydroxide
- Calcium Chloride Anhydrous
- Calcium Chloride
- Carbon Black
- Castor Oil
- Cationics Surfactants - Quaternary Amines, Imidazolines/Amides
- Caustic Soda Beads
- Cement Slag
- Cenospheres
- Ceramic Microspheres
- Chelants
- Choline Chloride
- Citric Acid 50% Solution
- Citric Acid Anhydrous
- Crosslinkers
- CMC (High Viscosity) Carboxymethyl Cellulose
- CMC (Low Viscosity) Carboxymethyl Cellulose
- CMC Modified (Ultra High Viscosity) Cellulose
- Colemanite
- Corn Starch
- Corrosion Inhibitors
- DDBSA (LABSA)

RAVAGO ENERGY SERVICES

- Defoamers
- Demulsifiers
- Diethanolamine (DEA)
- Dimer Trimer Fatty Acids
- Dinonylphenol
- Dispersants
- Diutan Gum
- D-Limonene
- Emulsifiers
- Enzymes for EOR
- Epoxy Curatives
- Epoxy Resins
- Ester Quat
- Ethyl Hexanol (2-EH)
- Flowback Aids
- Fluoro-Carbons
- Foamers
- Formic Acid
- Formulated Amines- BHMT, DACH, HMD,
- Friction reducers
- Fumaric Acid
- Fumed Silica
- Gellan Gum
- Gilsonite
- Glacial Acetic Acid
- Glass Bubbles
- Gluconic Acid
- Glutaraldehyde
- Guanidine Copolymers
- H₂S Scavengers
- HEC Hydroxyethyl Cellulose
- Hydrate Inhibitors- KHI and AA
- Imidazolines/Amides
- Lecithin
- Lignosulfonates
- Lubricants- Sulfur, Chlorine, and Ester Based

E & P CHEMICALS

- Magnesium Chloride
- Magnesium Sulfate
- Magnesium Oxide
- Modified Polycarboxylate
- Monoethanolamine (MEA)
- Monoethylene Glycol (MEG)
- Naphthalene Sulfonates
- Non-Ionic Surfactants - Amides, Blends, Polysorbates, Ethoxylates, EO/PO, PEG's
- Oxalic Acid
- PAC (High Viscosity) Poly-Anionic Cellulose
- PAC (Low Viscosity) Poly-Anionic Cellulose
- Paraffin Inhibitors
- PEG Ester
- Phosphates
- Phosphoric Acid
- Phosphorous Acid 70%
- Phosphorous Acid 98.5%
- PHPA
- PIBSA Alkanolamine
- PIB Succinimide
- Polyacrylate, EVA
- Polynaphthalene Sulfonate
- Polyurethane Dispersions
- Polyvinylester Blends
- Potassium Acetate
- Potassium Chloride
- Potassium Formate
- Propargyl Alcohol
- Propylene Carbonate
- PVOH Polyvinyl Alcohol
- Quaternary Amines
- Recycled Glass Micropowders
- Recycled Glass Powder
- Recycled Ground Rubber
- SAPP
- Scale Inhibitors
- Silica Flour
- Silica Fumed
- Silicone Fluids
- Soda Ash
- Sodium Acid Pyrophosphate (SAPP)
- Sodium Benzoate
- Sodium Gluconate
- Sodium Hypochlorite
- Sodium Metasilicate

RAVAGO ENERGY SERVICES

- Sodium Metabisulfite
- Sodium Perborate Tetrahydrate
- Sodium Sulfite
- Sorbitol
- Sorbitan Mono-oleate
- Specialty Surfactants
- Styrene Butadiene Copolymer Latex and Powder
- Sulfamic Acid
- Sulfuric Acid 93%
- Synthetic Cement Retarders
- Synthetic Suspension Additives
- Tartaric Acid
- THPS 75%
- THPC 80%
- Triethylene Glycol (TEG)
- Vinyl Acetate-Ethylene copolymer (VAE)
- Viscosifiers- Fracking
- Water Clarifiers
- Water Treatment
- Welan Gum
- Xanthan Gum
